OVERDRAFT- HOW WE ASSESS FEES - ACTUAL (LEDGER) BALANCE. An overdraft is created when we pay an item presented for payment and your account’s ledger balance is not sufficient to pay the item. An item may be a check, in-person withdrawal, ATM withdrawal, Point of Sale transaction, or other electronic debit. An Insufficient Funds (NSF) Item PAID fee will be assessed for each item we pay, except we will not assess a fee for ATM and everyday debit card transactions. You will be responsible to pay us the overdrawn amount.

RETURN ITEM FOR NON-SUFFICIENT FUNDS. If we do not pay an item and return it, we will charge you an Insufficient Funds (NSF) Item RETURNED fee. If an ACH item is returned, the financial institution initiating the ACH transaction may submit one or more additional debit items for payment of the underlying obligation. If a check is returned, the payee may present it for payment more than one time. We may charge you a return item fee for each submission of an item or presentation of a check. This means you may incur multiple return item fees in connection with the same obligation.
